## CHARGER

- Charging is possible via a watch charger and USB cable connected to PC or to power outlet (wall plug adaptor provided).
- Proper connection is indicated by one or more LEDs flashing.
- Full charge is indicated when the 4 power LEDs are flashing.
- Empty charge is indicated by one blinking LED.
- Charging time : 1 - 1.5 hours.

## CONFIGURATION & PERSONALIZATION - SLYDER

- SLYDER is a PC software application, which is available through our website [www.hd3complication.com](http://www.hd3complication.com) or directly on [www.slyde-shop.com](http://www.slyde-shop.com)
- You will need to register and create your personal account first in order to activate your warranty.
- You can then download SLYDER on your PC in order to personalize your watch (content and navigation parameters).
- You will also be able to buy and download latest virtual engines and other design creations from our online store [www.slyde-shop.com](http://www.slyde-shop.com)
- For more information, please consult the SLYDER software online user manual.
